

ENVIRONMENT POLICY

High Energy Service Pty Ltd (HES) is an environmentally responsible company with goals to become a high achiever in environmental performance. HES strive to meet or exceed requirements in environmental legislation and regulations and to look for ways to continually improve performance.

HES is committed to:

- Implementing our Environmental Management System to meet prevailing standards and practices.
- Meeting or exceeding all legal and Statutory obligations and those of our clients.
- Preparing Project Environmental Plans to ensure we, and our subcontractors, meet site requirements.
- Protecting the environment by identifying all activities / risks that may cause harm and controlling them using the hierarchy of controls process.
- Reduction of waste and recycling where possible as well as the safe disposal of hazardous material as per Government regulations.
- Ensuring all HES personnel are aware of their responsibilities in relation to environmental management, and that their competency is maintained at an appropriate level.
- In the event of an incident, HES will act promptly in a responsible manner to correct events that endanger the environment.
- Striving for continual improvement in our Environmental Management System and performance.

HES believes that meeting these requirements will assist in creating a culture of environmental awareness and concern and the tools to achieve 'best practice' on all our projects.
